On-Call Concierge: Affordable and Reliable Child Care for Busy Lives

What do you do when your child is under the weather and can't go to school, but you still need to go to work? Have you ever been invited to a last minute social event, but couldn't find child care? What happens when your child care worker unexpectedly doesn't come to work? These scenarios are all too familiar to many working parents. On-Call Concierge has the solutions to these problems and is ready to help busy parents in a pinch. A full-service child care, errand and concierge business, On-Call Concierge was founded as a solution for busy people in managing a work/life balance, including finding affordable and reliable child care – its most requested service.

Child care services provided

On-Call Concierge assists its clients with an array of in-home child care options including full-time, part-time,

occasional, overnight, date night and after-school child care. Its staff works with all age groups from newborn to teenage, and can even step in with “on-call” assistance when a family’s usual child care provider can’t. Unlike its competitors, On-Call Concierge does not charge a placement fee, and its hourly rates are affordable.

Thorough screening process

On-Call Concierge follows a rigorous screening process including a criminal background check, as well as a candidate’s driving record. Candidates are interviewed twice, and current references are also thoroughly checked. Additionally, the company hires candidates with a genuine interest in children and who can make a long term commitment to a family. The staff at On-Call Concierge spends a great deal of time with its clients too, assessing exactly what each family needs and then meeting its criteria so that when the family and candidate meet, they are already a match.

Available to individuals and organizations

With the increased

demands on employees in the workplace, businesses have called upon On-Call Concierge to provide services as an employee benefit. On-Call-Concierge has been entrusted to work with several major organizations, including five hospitals, to provide both child care and concierge services to busy staff members. One hospital client was so impressed with On-Call Concierge’s services that she asked the company to have services available to the staff and patients of her OB/GYN private practice.

Ridwana Lloyd-Bey was all too familiar with juggling work and family demands and founded On-Call Concierge as a solution for busy parents who simply want their children to be in good hands while they go to work.

“For me, it is very important that the children in our care are treated like members of our family,” says Lloyd-Bey. “Parents want to go to work and be assured that their children are in a nurturing and stimulating environment. They want reliable child care that won’t break their budget. We get it.”

On-Call Concierge is a Princeton-based company and works with clients throughout New Jersey, Pennsylvania and New York City. For more information call 609-921-2623 or visit www.on-callconcierge.com.
